 **About Sudexpress**

Sudexpress scale model trains emerges in 2008 as an extension of NORBRASS in the area of railway modeling, in plastic. Its main goal is the production of high quality models, available to a wider market. The manufacture of these models uses the latest technologies in drawing and injection molding processes, in accordance with the philosophy of precision and quality characteristic of NORBRASS. Its name derives from the famous train Sud-Express which connects the french capital Paris to Lisbon through Madrid, since 1887.

To meet the desires of the wide variety of railway modelers, Sudexpress scale model trains presents three lines of products - Standard, Premium line and Norbrass line. As the name suggests, Standard line stands for assembled and ready to roll models with great detail and at an affordable price. Premium Line offers standard models but with extra features such as sound decoder, servo motors and other extras from factory. Norbrass line are hybrid limited edition models made in brass and plastic, combining the best of both worlds.

Sudexpress scale model trains is a trademark of Avaliare Engenharia Lda.

 **Über Sudexpress**

Sudexpress Scale Model Trains entsteht 2008 als Erweiterung von NORBRASS Messing Modelle im Bereich Eisenbahnmodellbau in Kunststoff. Ihr Hauptziel ist die Herstellung hochwertiger Modelle, die einem breiteren Markt zur Verfügung stehen. Bei der Herstellung dieser Modelle werden modernste Technologien wie 3D CAD und Spritzgussverfahren eingesetzt, entsprechend der Präzisions- und Qualitätsphilosophie von NORBRASS.

Sein Name leitet sich von dem berühmten Zug Sud-Express ab, der seit 1887 die französische Hauptstadt Paris über Madrid mit Lissabon verbindet.

Um den Wünschen der unterschiedlichsten Eisenbahnmodellbauer gerecht zu werden, präsentiert Sudexpress Scale Model Trains drei Produktlinien - Standard, Premium Line und Norbrass Line. Wie der Name schon vermuten lässt, steht die Standard-Linie für montierte und fahrfertige Modelle mit viel Liebe zum Detail und zu einem erschwinglichen Preis. Premium Line bietet Standardmodelle, jedoch mit zusätzlichen Funktionen wie Sounddecoder, Servomotoren und anderen Extras ab Werk. Die Norbrass-Linie sind Hybridmodelle in limitierter Auflage aus Messing und Kunststoff, die das Beste aus beiden Welten vereinen.

Sudexpress Scale Model Trains ist eine Marke von Avaliare Engenharia Lda.

 **Sobre a Sudexpress**

A Sudexpress scale model trains surgiu em 2008 como uma extensão da NORBRASS no segmento de modelos ferroviários em plástico e tem como objetivo principal a produção de modelos de grande qualidade, acessíveis a um mercado mais alargado. Na execução desses modelos são utilizadas as últimas tecnologias de desenho e injeção, seguindo uma filosofia de rigor e qualidade que caracteriza a NORBRASS.

O seu nome vem do famoso comboio Sud-Expresso que ligou a capital francesa Paris a Madrid e Lisboa, a partir de 1887.

Para ir de encontro aos desejos de uma gama ampla de modelistas ferroviários a Sudexpress scale model trains apresenta três linhas de produtos - Standard, Premium line e Norbrass line. Tal como nome indica, a linha Standard apresenta modelos já montados e prontos a rolar com um bom grau de detalhagem e a um preço acessível. A Premium Line propõem modelos standard mas com funcionalidades extra tal como decoder de som, servo-motores e luzes adicionais de fábrica. Na Norbrass Line representa modelos de alta gama híbridos, combinando latão com plástico em edições exclusivas e muito limitadas.

A Sudexpress scale model trains é uma marca registada de Avaliare Engenharia Lda.

### The future of regional and suburban rail services... soon also in H0 gauge!

The Stadler FLIRT (Fast Light Innovative Regional Train) is a family of versatile, modern trains designed and built by Stadler Rail, a Swiss manufacturer. These trains are primarily used for regional and suburban rail services but can also be adapted for long-distance routes. They are notable for their modularity, efficiency, and comfort, making them a popular choice for operators in over 20 countries worldwide.

Since their introduction in the early 2000s, the Stadler FLIRT trains have gained a reputation for their modern design, operational flexibility, and efficiency, making them a popular choice for both regional and intercity rail transport.

In parallel with the real life prototype, Sudexpress is also working on detailed implementation of the Stadler FLIRT3 Rail cars as a high-quality H0 Scale model. As with our EuroDual and Euro9000 models, these will also boast spectacular detailing and optimal operational characteristics.

We will be communicating further information about the new FLIRT3 models shortly.

### Die Zukunft des Regional- und S-Bahn-Verkehrs... bald auch in Spur Ho!

Der Stadler FLIRT (Flinker Leichter Intercity- und Regional-Triebzug) gehört zu einer Serie von modernen Zügen, die vom Schweizer Hersteller Stadler Rail entwickelt und gebaut werden. Diese Züge werden hauptsächlich im Regional- und Vorortverkehr eingesetzt, können aber auch für den Fernverkehr angepasst werden. Sie zeichnen sich durch ihre Modularität, ihre Effizienz und ihren Komfort aus, was sie zu einer beliebten Wahl für Betreiber in über 20 Ländern weltweit macht.

Seit ihrer Einführung Anfang der 2000er Jahre sind die Stadler FLIRT-Züge für ihr modernes Design, ihre betriebliche Flexibilität und ihre Effizienz bekannt, was sie zu einer beliebten Wahl sowohl für den Regional- als auch für den Intercity-Bahnverkehr macht.

Parallel zum realen Vorbild arbeitet Sudexpress auch an der detaillierten Umsetzung der Stadler FLIRT3-Triebwagen als hochwertiges H0-Modell. Wie unsere EuroDual und Euro9000 werden auch diese über eine spektakuläre Detaillierung und optimale Betriebseigenschaften verfügen.

Weitere Informationen zu den neuen FLIRT3-Modellen werden wir in Kürze kommunizieren.

**Liability:**

Despite of our best effort and the best possible care, AVALIARE Engenharia Lda is not liable and gives no warranty for the accuracy, up-to-dateness or completeness of the contents and the information given in this catalogue.

AVALIARE Engenharia Lda reserves the right to update the contents of the catalogue as well as the technical specifications of the contained products at any time. Many models shown on the illustrations are photomontages and 3D CAD drawings. The final and delivered version of the models may therefore differ from the depicted illustrations. Electrical and mechanical data and dimensions may vary. Products from the series production may differ in detail from the depicted models. Availability and delivery options of the illustrated products are subject to change.

**Haftung:**

Trotz größter Bemühungen und größtmöglicher Sorgfalt übernimmt die AVALIARE Engenharia Lda keine Haftung und Gewähr für die Richtigkeit, Aktualität und Vollständigkeit der in diesem Katalog enthaltenen Inhalte und Informationen.

AVALIARE Engenharia Lda behält sich das Recht vor, den Inhalt des Katalogs sowie die technischen Spezifikationen der enthaltenen Produkte jederzeit zu aktualisieren. Viele der auf den Abbildungen gezeigten Modelle sind Fotomontagen und 3D-CAD-Zeichnungen. Die endgültige und ausgelieferte Version der Modelle kann daher von den abgebildeten Abbildungen abweichen. Elektrische und mechanische Daten und Abmessungen können abweichen. Produkte aus der Serienfertigung können im Detail von den abgebildeten Modellen abweichen. Verfügbarkeit und Liefermöglichkeiten der abgebildeten Produkte sind freibleibend.

**Responsabilidade:**

Apesar dos nossos melhores esforços e do maior cuidado possível, a AVALIARE Engenharia Lda não se responsabiliza e não garante a exactidão, actualização ou veracidade dos conteúdos e da informação aqui apresentada neste catálogo.

A AVALIARE Engenharia Lda reserva o direito de actualizar o conteúdo do catálogo, bem como as especificações técnicas dos produtos nele contidos a qualquer momento. Muitas das imagens presentes nas ilustrações são fotomontagens e desenhos CAD 3D. A versão final e distribuída dos modelos pode, portanto, ser diferente das ilustrações apresentadas. Dados, especificações e dimensões podem variar e diferir do indicado neste presente catálogo. A disponibilidade e a distribuição dos produtos ilustrados neste catálogo está sujeita a alterações.
